

SEMINARI per gli studenti del XXXIX ciclo di Dottorato in Scienza del Farmaco

Oratore	Titolo	Data	luogo
Dr. Simona Pace University of Salerno	<i>Impact of sex hormones on the modulation of the inflammatory response</i>	08/04	Ore 15 Aula Magna
Prof. A. Doemling University of Oxford	<i>Automation + Miniaturization = Acceleration</i>	17/04	Ore 10 Aula Magna
Dr. Adriano Lama University of Trento	<i>'Environmental and dietary factors in neuropsychiatric disorders: focus on gut-brain axis'</i>	06/05	Ore 15 Aula Magna
Prof. Stefano Salmaso University of Padova	<i>Core and surface engineering of "smart" nanocarriers for drug delivery</i>	20/05	Ore 15 Aula Magna
Prof. Federico Polo University of Venice	<i>Synthetic receptors in (bio-)sensing architectures: do we still need antibodies?</i>	03/06	Ore 15 Aula Magna
Prof. Paul Brennan University of Oxford	<i>Chemical probes in target discovery</i>	17/06	Ore 14.30 Aula Magna
Dr. Monica Campas Institute of Agrifood Research and Technology, Spagna	<i>Structural versus toxicological estimations from bioanalytical tools for marine toxins</i>	08/07	Ore 14.30 Aula Magna
Prof. Francesca Bartolini University of Columbia	<i>Emerging roles for microtubules and tubulin modifications in health and neurological disease</i>	16/09	Ore 14.30 Aula Magna
Prof. Iolanda Francolini University of Rome La Sapienza	<i>Antimicrobial polymers: from structural design to applications</i>	30/09	Ore 14.30 Aula Magna
Prof. Anne Régnier-Vigouroux University Mainz, Germany	<i>Targeting of the immunometabolism of tumor-associated macrophages with the small molecule ONC201</i>	14/10	Ore 14.30 Aula Magna
Prof. Adele Romano University of Rome La Sapienza	<i>Oleoylethanolamide: a fat ally in the fight against obesity and eating disorders</i>	21/10	Ore 14.30 Aula Magna
Prof. Asif Jilani Iqbal University of Birmingham	<i>Galectins: multifunctional mediators of inflammation linked to cvd</i>	04/11	Ore 14.30 TEAMS
